Table with 20 columns: year, month, day, name, address, zip, latitude, longitude, area, phone, website, status, type, category, subcategory, price, volume, weight, height, length, width. Rows include various companies like 'S. J. Greenhouse' and 'S. J. Greenhouse' with their respective details.

Table with 35 columns (ID, Name, Type, Address, etc.) and many rows of data, likely representing a list of companies or organizations with their contact information.

Table with columns: ID, Code, Description, Category, Sub-category, Name, Value, Date, etc. The table contains a dense list of data entries, likely representing a financial or administrative ledger. It starts with a header row and follows with approximately 100 rows of data.

Table with multiple columns: Index, Country, Party, Description, Source, and various numerical values. The table lists numerous political parties from various countries like Belgium, Germany, and Italy, along with their financial details for a specific period. Columns include the party name, a brief description of their political stance or goals, the source of funding, and several columns of numerical data representing financial metrics.
